# KENTUCKY FEUDISTS HAVE BURIED DIFFERENCES

## General Pershing Says World War Could Have Been Avoided

### BLAME IS LAID AT DOOR THOSE WHO THEN RULED

Failure to Recognize Existence  
Envy, Jealousy and Hatred  
Is Given as the Cause.

### LOSS OF LIFE UNNECESSARY

Urges Larger Appropriation for  
Maintenance of Army Dur-  
ing Coming Fiscal Year.

(By Associated Press)  
WASHINGTON, April 25.—The United States, "with adequate military preparations and under a strong leadership," could have prevented the occurrence of a world war, General John J. Pershing declared in testifying before the senate military affairs committee in behalf of the war department's plea for an increase in military establishment over that proposed by the house.

Failure to recognize the existence of "envy, jealousy and hatred," among the nations as among individuals, he said, has invariably sent the United States unprepared into a great crisis, and caused "unnecessary loss of life and left us staggering under financial burdens."

The 115,000 enlisted strength of the army bill passed by the house, provides a military structure "below the safe minimum requirements" of the nation. Secretary Weeks told the committee in urging appropriations for the next fiscal year, to permit of a force of 13,000 officers and 150,000 men in the regular army.

Entirely Satisfactory.

(By Associated Press)

Details of the plan were not discussed, but it was said it does not include federal supervision of the coal industry.

The plan which is now receiving the attention of President Harding and his advisers, it was said, contemplates a permanent solution, if possible, of the basic problems of the industry. Presentation of the plan, it was indicated, would be made when a favorable opportunity presents itself.

### TO ELIMINATE MUD TAX SAYS ROAD BOOSTER

Goods Roads Association Meets  
Phoenix, Ariz., to Discuss  
Important Matters.

(By Associated Press)  
PHOENIX, April 25.—Taxpayers of the United States have made up their minds to eliminate the "mud tax" which is estimated to be costing the citizens \$504,000,000 annually, T. L. Kirkpatrick of North Carolina declared in an address here today before the tenth annual convention of the United States Good Roads Association.

"We have sufficient funds," said the speaker, "to build a great modern system of interstate and national highways traversing the entire nation from New York to San Francisco and from Maine to Miami, Florida, besides two seaboard highways along the entire coast of the Atlantic and Pacific. Then our natural, agricultural and manufactured resources could easily be distributed to all parts of the world."

"We have had enough talk about the fundamental principles of government. What we need in this hour is a practical application of the rules of government to the needs of the governed. The way to proceed, is to proceed. The way to do things is to do them. 'Impossibility lies in the book of fools.'"

He declared that the question of building modern highways has become the biggest question financially and economically in the minds of the American people today. "The time has come when the American farmer is demanding, and has a right to demand, the same community advantages that the urbanites have," Mr. Kirkpatrick added. "The world is just awakening to the advantages of modern transportation facilities in lowering the cost of distribution. Modern highways lead upward to high possibilities of national life. Bad highways form the other road downward to ruin."

### OFFICIALS OF LOS ANGELES ARE AROUSED

Mob Violence Will Be Brought  
to End According to New  
Chief of Police.

### FOLLOWS INGLEWOOD RAID

Any Peace Officer Belonging to  
or Supporting Masked Raid  
Will be Discharged.

(By Associated Press)  
LOS ANGELES, April 25.—Los Angeles city and county officials are aroused against night riders and mob violence as a result of the Inglewood shooting on Sunday during which Constable Mosher was killed and two other peace officers were wounded, while participating in a mob raid by masked men. Louis Oaks, new chief of police, today declared his men have been ordered to break up any mob found and if any member of the police department takes part in any mob action, or becomes a member of any organization formed for that purpose and of taking action of this kind, he will be dismissed from the service. Sheriff Traeger has issued similar orders.

(By Associated Press)  
LOS ANGELES, April 25.—The coroner, assisted by representatives of the district attorney, and guarded by deputy sheriffs, began an inquest today into the death of Constable M. B. Mosher, killed Sunday night. The inquest, it was announced, will be broadened in scope to determine not only who caused the death of Mosher and what facts surrounded its occurrence, but also what was the motive back of the mob activity, and who was responsible for the entire affair.

The raid resulting in the killing of Constable Mosher was arranged in a meeting Friday night in which Blake E. Shambau, Inglewood traffic officer, was initiated into the Ku Klux Klan, Shambau testified at the inquest. The secret meeting arranging the raid was held in the undertaking parlors where the inquest is now being conducted. Shambau testified. Shambau, who is deputy marshal, and a deputy sheriff, testified that two undertakers and a doctor were among those who attended the meeting.

An altercation interrupting the inquest, developed between Chief Deputy District Attorney Doran and William S. Coburn, supreme attorney and Grand Goblin of the Pacific domain of the Ku Klux Klan, when the latter attempted to interfere with the investigator's questions. After a spirited interchange Doran ordered the Klan officer to sit down, amidst cheers from the throng attending the inquest. Another sensational development was the testimony of Donald Parker, a newspaper photographer, who received an exclusive "tip" of the raid, that he had been a member of the Klan and had resigned yesterday. Shambau's testimony was drawn out bit by bit by Doran. He admitted the meeting in which the raid was planned was an official meeting of the Ku Klux Klan and was officiated at by Klan members. He completely broke down under the grilling by Doran. About 30 persons attended the meeting, Shambau testified. The Friday evening meeting of the Klan was attended by Constable Mosher, and his son and deputy, Walter, who was wounded, according to Shambau's statement.

### WINE CEASES TO BE LUXURY DEAR ENGLAND

Wine Merchants Propose "Wine  
Week" in Emulation of  
Famous French Custom.

(By Associated Press)  
LONDON, April 25.—English palates, long noted for their appreciation of fine old wines, are in danger of deterioration because of the lower price of vintages, according to a group of prominent wine merchants who propose an English "wine week" in emulation of the French custom. Wine, they declare, is no longer a luxury as the lower price has brought it within the reach of all.

The purposes of wine week, it is said, will be to educate the English taste for wines and also to instruct diners in the elementary rules and traditional usages of beverage selections. It is planned to gather a representative group of speakers and writers to sing the praises of wine, and to tell those who would learn how to drink it. The merchants expect substantial assistance from the governments of wine producing countries, such as France, Italy, Spain and Australia.

GENOA, April 25.—Foreign Minister Chicherin, of Soviet Russia, declared today to the Associated Press, that allied resistance to the Russian principle of nationalization was blocking the economic conference. Watts, special agent of the department of justice, was removed "for disloyalty to the department" after an admission he had furnished to Representative Johnson, of South Dakota, certain information on which Johnson based an attack on the department in a recent speech in the house.

The order of removal was signed by Assistant Attorney General Holland, and made public at the department. In the letter to Watts, Holland said the step had been taken "inasmuch as you have knowingly and wilfully violated the rules of the department, which as you must be aware, constitute a breach of trust."

### LOVE YOUR DOG THEN TAKE OUT TOWN LICENSE

Failure to Do So Will Result  
in Animals Being Killed  
by Proper Official.

The ordinance relating to payment of licenses for dogs is to be rigidly enforced and unless said license upon a canine is taken out immediately your pet is likely to be killed. This edict was issued today by Chief of Police O. H. Smith, whose duty it becomes to collect the license fee, which calls for \$2.50 on dogs and \$5 on females.

This ordinance has not heretofore been enforced, but there has accumulated so many canines in the city, many of whom apparently have no owners, and who have been making a nuisance of themselves, that some prompt action has been deemed necessary.

Official notice of the order promulgated by Chief Smith will be found in another column of this paper.

### ORDER DIRECTED MILL CREEK

Lawlessness Kentucky Moun-  
tains Will be Brought to  
End, Says U. S. Judge.

(By Associated Press)  
MANCHESTER, Ky., April 25.—Fugitives of Clay county, who a few months ago were ready to shoot opposing clansmen on sight, have today joined hands with each other and the civil authorities to clean up Mill Creek, following the action of Circuit Judge Hiram J. Johnson, who yesterday issued warrants for the arrest of 200 mountaineers. All persons in the Mill Creek territory over 12 years of age will be arrested by the posse in Judge Johnson's drive to stop lawlessness in the Kentucky mountains. The court's instructions were to "bring the men in" and he announced he is going to clean up Mill Creek if it required the assistance of a thousand soldiers.

The trouble about the Mill Creek section began Thursday when a witness in a land suit was shot to death from ambush. Deputy sheriffs later that day went into the neighborhood to serve warrants for persons wanted in connection with the shooting. They were attacked by 16 men in ambush and after one deputy was shot from a horse and three horses were hit by bullets, the riders escaped by hiding until darkness fell. Conspiracy among the Mill Creek residents to thwart the law has existed for several months, the deputies declared.
